ABOUT ME

I am a third-year Computer Science Engineering student at VIT-AP, with a strong academic and practical foundation in Artificial Intelligence, Machine Learning, and Deep Learning. I am proficient in multiple programming languages including C++, Java and Python.

I have a solid command of cloud platforms and development tools such as AWS, GitHub, and Google Colab, enabling efficient collaboration, deployment, and experimentation. I am passionate about building intelligent systems and scalable web applications, and I continuously seek opportunities to apply my technical skills to real-world problems. I am currently seeking an internship that allows me to contribute meaningfully while gaining valuable industry experience.

EDUCATION

2023-2027

Vit Ap University

Btech computer Science with AI and ML

CGPA :- 8.0

2019-2020

Delhi Public School,Nashik

12th- cbse board

percentage:- 83.6 %

2019-2020

Delhi Public School,Nashik

10th- cbse board

percentage:- 83.6 %

CERTIFICATIONS

july-2025

june-2024 october-2023

ibm certification for ibm cloud

web 3.0 certification

SKILLS

LANGUAGES :Python, Java, JavaScript, C/C++, HTML/CSS, R

FRAMEWORK/LIBRARIES : Numpy, Pandas, Matplotlib, Scikit-Learn,Streamlit

TOOLS : Git/Github, AWS, Google Colab, VS code, RPA

DATABASES : MYSQL, Relational Database, MONGO DB

PROJECTS

-AI Assistant (LangChain & OpenAI)

Implemented a conversational AI assistant using LangChain, ChatOpenAI, and ReAct agents, capable of performing calculations and engaging in interactive chat via streaming responses.

-Chess Game (java)

Developed a basic chess application in java, implementing basic game rules, move validation, and interactive gameplay for two players(opponent is basic ai) in the console environment.

CLUBS AND CHAPTERS

-Co-Lead –Toastmasters, Cultural Club Event

Directed the club's visual identity by designing posters, event flyers, and digital creatives to boost participation and engagement. Led event decoration and stage design, ensuring visually appealing environments that enhanced audience experience. Collaborated with the executive team to align creative output with the club's themes and goals. Contributed to a 25% increase in event attendance

-Member – Technical Team, SEDs VIT-AP University

Contributed to data-driven projects by analyzing real-world datasets. Collaborated with a cross-functional team to build end-to-end ML pipelines for club Applied Python, pandas, scikit-learn, and visualization libraries to uncover trends
